We Are MIPPA

MIPPA, Midwest Independent Physicians Practice Association, is a membership organization established by physicians in June 2009.

MIPPA has grown to over 900 primary care and specialty clinicians including physicians as well as APRN's, PA's, Optometrists, Chiropractors and more.

MIPPA's membership spans the state of Nebraska and Western Iowa. As physicians, we share common professional values and

beliefs which serve to benefit our patients. MIPPA's primary focus is to be the collective voice for independent physicians and clinicians who are working to provide our patients the highest standards of quality and cost effective health care.

MIPPA works to collaboratively strengthen and support independent physician practices throughout our Nebraska and Iowa communities.

MIPPA offers educational programs focused on relevant topics designed to meet the specific needs of physician practices such as clinical measures training.

MIPPA Opportunities

MIPPA provides you and your practice an opportunity to:

- Benefit from economies of scale participating in our group purchasing program
- Networking among MIPPA members to provide services in our CMS approved Accountable Care Organization (Midwest Health Coalition) serving the Medicare beneficiary population
- Be involved in value based health care and new payment models
- Insurance offerings
- Assist in designing the future MIPPA Commercial Health Plans
- Participate in innovative partnerships and health ventures currently being developed
- Freedom to pick and choose participation in the MIPPA programs that benefit your practice
- Join the Telehealth Provider Network
- Access consultation in clinical practice management
